ENERGY EQUITY WEBINAR: KEEPING THE LIGHTS ON
Tuesday, January 30 at 2pm

Energy Efficiency for All-Georgia and Georgia Watch recently developed [Keeping the Lights On](#), a consumer guide and policy paper about how to expand access to energy efficiency and community solar for all Georgians. Building upon the guide, we are hosting a webinar discussing some of its key elements and what advocates, policymakers, and community members can do today to tap into the benefits of these exciting new technologies.

During this FREE webinar, you will learn about the following:

- Energy equity and the energy burden in Georgia
- Simple energy efficiency measures for your home
- Benefits of energy efficiency and community solar
- How to expand access to these clean energy solutions for low-income Georgians
- and more!

The webinar is open to community members, policymakers, and advocates interested in energy efficiency and clean energy.
